Date Repaid <sup>1</sup> :	N/A	State:	Virginia

<sup>1</sup>If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

**What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).**

☒ **Increase lending or reduce lending less than otherwise would have occurred.**

0

☒ **To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).**

Small Business Loans, Commercial Mortgage Loans

Virginia Company Bank

What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?

We were able to avoid a reduction in lending efforts to our local community.

Virginia Company Bank

### What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?

The capital infusion of CPP funds allowed us to continue lending to businesses and consumers in our local market. It also allowed us to decrease our dependence on wholesale funds, thus improve our liquidity ratio. The infusion provided us with additional capital to improve the safety and soundness of our institution by further improving our categorization as a well capitalized bank, thus bringing further confidence to depositors to keep their funds deposited in our institution. All of the above allowed our institution to be viewed as a source of stability in the community.
